From the outside, the Culture stands as a majestic tree of synthetic concrete rising from the ground and up into the sky, tearing scarce clouds apart in its endless ascent. The crops surrounding the root of the tree-shaped city are optimally organized in circles, saving space and labor to the fully automated machines taking care of them, whereas the Culture itself is an anarchic and twisted edifice sculpted off chaos by the burning energies of city life. If you stare at it for a while, you can see it transform before your eyes, bit by bit, as old constructions vanish while new ones arise, leaving only vestiges of past architectural whims in strata of ancient history.

80 BEATS PER MINUTE

HA HA HA HA HA  
HA HA HA HA HA  
HA HA HA HA HA  
HA HA HA HA HA

AT DAWN, THE CULTURE LOOKS LIKE A HUGE TRASH BIN, STARRING PEOPLE AS GARBAGE. THIS ABUNDANCE OF EVERYTHING TURNED THEM INTO 5-YEAR-OLDS, PLAYING WITH EVER-CHANGING TOYS. NO-ONE'S HERE TO TELL THEM WHAT TO DO WITH THEIR PATHETIC LITTLE LIVES.

TOBBY? DO YOU EVEN KNOW ME?  
THERE'S ONE COLOR I NEVER WEAR,  
A COLOR I HATE, A COLOR YOU WON'T  
FIND ANYWHERE ON ME, OR NEAR ME...  
AND WHICH COLOR IS THAT? HUH?  
COME ON, FOCUS TOBBY...

HUMANITY,  
LATEST VERSION.

WELL ...  
I SUPPOSE IT'S YELLO ...

EXACTLY TOBBY, YE-  
AND WHY YE-  
LOW!

BECAUSE I FUCKIN'  
HATE YELLOW. YELLOW  
THINGS NEVER LOOK  
GOOD ON ME!

I'M START-  
ING TO  
GET THE  
STRANGE  
FEELING  
THIS CULTURE  
HAS NEVER  
BEEN THAT  
CLOSE  
TO AN  
END

BUT WAS IT REALLY DIFFERENT BEFORE?

I CAN IMAGINE THAT TOMORROW EVERYONE WILL KNOW ABOUT TOBBY ... EVERY LIVING ASSHOLE WILL SEE THIS IMAGE OF POOR TOBBY... TOBBY THE UNLUCKY, WHO JUST PICKED THE WRONG COLOR...

UNHAPPY  
PEOPLE ARE  
NOT WELCOME  
IN THIS WORLD

100 BPM... HAVE TO TAKE A BREAK...

Each day, the Machine – the omnipresent neural network unifying all human knowledge and experience, and in charge of the upkeep of the Culture – provides everyone with a portion of automatically synthesized and cultivated raw materials, commonly referred to as Materia. Through a permanent biological monitoring and numerous behavioral scans of the population, the Machine can estimate easily and with great accuracy how much one needs to survive, be in good health, and never feel the lack of anything. Because, clearly, the Machine’s primary function is to maintain all citizens in a very comfortable state of abundance.

In exchange for a share of their generously allocated resources, frenz can fulfill all of their material desires – from basic needs such as food and shelter to the most trivial things – with the help of ubiquitous printers capable of near-molecular assembling. Coupled with contextual fabrication interfaces, these let you customize your creations at will: you can select templates created by other users, modify them just enough to satisfy your need for personalization, mix templates into new ones, or even start from scratch, coding what you need from the very core.

Provided you are equipped with the mandatory non-invasive eye implant – the ‘i’ – you will see countless decorations, messages, announcements, and infographics manifest in a digital layer covering every square centimeter of your vision. What used to be called augmented reality is now irreversibly integrated to frenz’ lives, both as a navigation tool and as a means of esthetic expression. The display is of mediocre quality, but lo-def is a small price to pay in exchange for an ultrafast and permanent flow of information. And you should trust frenz who claim you have to be born here to endure such a massive data input without throwing up. Even for them, it can get nauseous at times, although the ‘i’ offers many ways to handle and filter this visual load.

085

086

087

Nevertheless, it is safe to say that if one were to suppress it, people would be completely lost in the Culture: you won’t find your way without an ‘i’.

SHE DIDN'T BOTHER  
GIVING ME A NAME

BUT AT LEAST SHE  
GAVE ME AN !!!

MY MOTHER NEVER TAUGHT ME ANYTHING. SHE DIDN'T CARE ABOUT ME AT ALL. SHE DIDN'T EVEN INSTALL THE EDUCATIONAL APPLICATIONS YOU'RE SUPPOSED TO GIVE A NORMAL KID. I ONLY HAD THE DEFAULT FOOD FABRICATION AND SHELTER INTERFACES.

IT ALL SEEMED SO SIMPLE FOR THE OTHER FRENZ. THEY WERE MANIPULATING THIS EXTRA LAYER TO REALITY WITH SUCH EASE.

EVERYTHING WAS SO NATURAL FOR THEM.

ME, I HAD TO LEARN THROUGH OBSERVATION

SPYING ON THEM

LOOK AT THAT!

WOW THAT WAS NUTS!

TRYING TO FIGURE OUT WHAT PEOPLE TALKED ABOUT IN THEIR DAILY PIMS AND ORDERS, I FINALLY LEARNED THE BASICS OF RAPID LANGUAGE.

IT'S HIS SECOND RECORD IN A WEEK...

HE'S BECOME SUCH A STAR NOW...

I GUESS IT'S TRUE NOBODY RIDES LIKE HIM, BUT, IS IT REALLY DESERVED? I MEAN, HE'S A NOOB.

*BUT WHAT I DEVELOPED WAS A PARTICULAR HATRED TOWARDS FRENZ AND THEIR WORLD OF DELUSIONS.*

I JUST WISH I WAS HALF AS GOOD

There is no leader in the Culture, nor is there any kind of government, even if some ideological gatherings still take place here and there. All administrative decisions are calculated through the Machine, according to statistical deductions garnered from people's opinions. This mathematical take on self-management can seem strange at first sight, but because it is highly permissive and maintains the essential feeling that nothing is ever forbidden, most frenz consider themselves satisfied, and keep a certain trust and faith in the system. One just has to understand that the Machine is not an ill-intended super-intelligent computer, but the result of a real-time connection between all human brains: it is a giant agora for thought, managing the Culture in a seemingly ultra-democratic manner. No decision is ever static, and any citizen's voice can influence the global debate in its own way, so no one ever feels the need to suppress the system as a whole. Instead, it is considered as a code for programming your own system, collectively, with all your fellow-citizens. Frenz consider the Machine as an established force, a figure to their society that cannot be contested without questioning the whole Culture. It can never *go wrong*, as it bears no other idea than the logical average of everyone's opinion. As a political system, the Machine succeeds where every other has failed, neutralizing all aspirations for revolution.

136

137

138

The Machine gathers all the data it needs through the very way frenz exchange information:

139

140

Rapid Language. If spoken language is still prac-

141

ticed for direct social interaction, frenz mostly

142

communicate in this simplified form favoring the

143

quick encoding of opinions. In fact, expressing your

144

opinion could be considered your only civic duty in

145

the Culture: it is through never-ending debates about

146

everything that this society evolves and progresses.

147

Here, privacy is unthinkable – all conversations

148

and transmissions are public and accessible to any-

149

one at all time. But even if you could be tempted

150

to call this a transparent system, make no mistake:

151

having such shells of data surround anything and

152

anyone is far from being transparent. Frenz always end

153

up scratching more than they can see.

182

183

Perhaps you now have the feeling that the Culture is nothing but a giant amusement park for overgrown children, and there is some truth in that indeed. Everything here is built around entertainment, and personal augmentations as well as public displays constantly glorify mass distraction. Of course, it could be argued that such immoderate hedonism has a negative impact on global human progress, but you have to understand no frenz would ever complain about that. Dreams of brighter tomorrows have all faded under the blinding light of this perfect present.
